1. INTRODUCTION

- The “Board of examination” is a committee which handles all the operation regarding examination.
- These operations include duty of exam-paper submission, paper checking, viva examination information and ensure all these operation done before deadline given to HOD and the Teachers.
- The committee also ensure that every department should notify about their duty assigned during each external examination.

2. WHY “BOE” PROJECT?

- Till 2014 all the operations handle by “Board of Examination” was done manually i.e. “ON-PAPER” so there was a big chance of loss of data, which contains important database regarding examination duty and final outcome is delayed in examination results.
- “Board of Examination Website” is an attempt to handle and manage all the operation “ONLINE” rather keeping it offline and to make this process easier.
- “The BOE PROJECT” keeps the data online and ensures that all the duty assigned to the examiners is done before deadline is reached.
- This website inform examiner about their duty by sending them “E-mail” and “SMS” and reminds them about deadline, so that, all the operations are done before deadline and students get their result without any delay.

3. TECHNOLOGY USED

- Front-end : .NET TECHNOLOGY
- Back-end : RDBMS,C#,javascript
- Development tools: Visual Studio 2010.
: SQL-SERVER 2008.
- Internet information service(IIS).
